

Shaun Wang

Phone: (754)-399-6215 | **Email:** s.wang0814@gmail.com | **Linkedin:** www.linkedin.com/in/shaun-wang-

Website: https://shaunw0814.github.io/ | **Devpost:** https://devpost.com/s-wang0814

Objectives: Computer Science student with strong communication skills, team player, and a self-starter attitude looking for an internship. Bringing experience in object-oriented programming and knowledge in a variety of coding languages.

Education

University of Florida Gainesville, FL

- **Major:** Bachelor of Science in Computer Science
- **GPA:** 3.77 / 4.00
- **Relevant Coursework:**
 - C++ programming
 - Discrete Structures
 - Introduction to Computer Organization (ARM assembly/ LEGv8)
 - Professional Communication for Engineers
 - Java programming
 - Data Structures and Algorithms
 - Engineering Statistics

Skills

Coding Languages: C++, C#, Java, HTML, CSS, Javascript, Python, Matlab, ARM assembly

IDEs: IntelliJ, BlueJ, Visual Studio, Visual Studio Code, (VMware when using Linux Ubuntu)

Languages: Chinese and English

Projects

Slack4Uni

- Won 3rd overall and best "Connected Campus" category in the HoyaHacks'22 hackathon.
- Created a Slack app using Slack's API and Bolt Framework in Python.
- Worked in a team of 5. I specifically worked on figuring out the different functions offered by the Bolt Framework and designing functionalities that would be implemented.

Minesweeper

- Designed and debugged an algorithm that updates visuals for a minesweeper game through vector and map implementations.
- Built with SFML (Simple and Fast Multimedia Library) in C++ on Visual Studio.

Portfolio Website

- Built a personal portfolio website that visualizes aspects of my resume using HTML and CSS

Involvement

C# teacher | MSD coding club

Introducing interested members to the basics of C# (loops, variables, and functions) and made monthly projects. Organized monthly curriculum and weekly meetings.

Hackathon Participant

I try to signup and participate in hackathons whenever my weekends open up. Tackling new languages and developing new ideas is something that I look forward to in my hackathons.
